

# Ten Times A Day, And So On

sorry things had to be this way  
but destiny has got the final say  
times we spent and days gone away  
nothing left to say but so long

Chorus: and so on  
another day is gone  
and so on  
its been so long  
and so on  
another day is gone  
and so on  
its been so long, its been so long since then

looking back  
things had to be this way  
cause destiny has got the final say  
moving on, another year is gone  
nothing left to say but so long
