

Tenacious D, Video Games

Are you plugged in?

Yeah

Alright, ready?

1, 2... a 1, 2, 3...

I don't play video games no more, I never play video games
Except for a little bit of God of War, I never play video games
Maybe a once in a while, a little bit of Fallout 4
But that's okay, not right now, I got things to do

'Cause I don't play video games no more, never play video games
But Red Dead Redemption 2, that is not a game
It's an incredible journey through old American history
Fighting for your life and fighting for your family
Try to live your days with honor and integrity
That's not a game, that's an adult thing
That's not a game at all, that's like fuckin' Shakespeare
Free gee, tee dee dee, tee dee dee, tee dee dee, tee dee dee, tee dee dee, tee dee...

You know I don't play video games no more, tiny bit of video game
I guess I still play fuckin' video game, yee haw

That it, that's the one
It's on the album
