

# Terror, Not This Time

Too long we left this fall apart  
Too long we believed in those with no heart  
Too long fake fools they had their say  
No more will you disgrace my everything

Not this time  
No more  
Not this time

Too long values we let them blend and fade  
Too long our truths they've gone astray  
Too long I believed you and I were one in the same  
No more will you deface my only name

This time is my time  
This time is our time  
Those who struggle  
The ones with sight  
Come from the heart and sacrifice  
We are so alive  
This is our time
