

# Terrorvision, Perseverance

I was high on a Molotov of cocktails,  
I was low on a hundred things,  
I was wrong to put my money where my mouth was,  
I was right about the whales and the dolphins,  
Whales and dolphins, whales and dolphins, yeah.  
And I don't mind preserving time at all.  
I was blue about the people in the power,  
I was green that's my excuse,  
I was yellow when they said to fight the reds,  
'Cos I knew I'd be beaten black and blue,  
Black and blue, battered and bruised, yeah.  
Hold the line, just give it some time then (call)...  
"Cor", what I like and what I hate about perseverance,  
Ooh, what I'd give and what I'd take for perseverance.  
I was round and about in the area,  
I was wearing my suit and tie,  
I was lost in the Bermuda triangle,  
It all went pear-shaped, twisted and twined,  
Twisted and twined, twisted and twined, yeah.  
And I don't mind preserving time at all.  
Hold the line, just give it some time then (call)...  
"Cor", what I like and what I hate about perseverance,  
Ooh, what I'd give and what I'd take for perseverance.  
I was lost on the road to nowhere,  
I was a guest on a runaway train,  
I was happy 'cos I knew I was innocent,  
They were glad to let me take the blame,  
Taking the blame, taking the blame, taking the blame,  
It's always the same 'cos  
I... what I like and what I hate about perseverance,  
Ooh, what I'd give and what I'd take for perseverance,  
I haven't time, I haven't space for perseverance,  
'Cos I swap and change just when I like to keep up appearance.
