Terrorvision, Perseverance

I was high on a Molotov of cocktails, I was low on a hundred things, I was wrong to put my money where my mouth was, I was right about the whales and the dolphins, Whales and dolphins, whales and dolphins, yeah. And I don't mind preserving time at all. I was blue about the people in the power, I was green that's my excuse, I was yellow when they said to fight the reds. 'Cos I knew I'd be beaten black and blue, Black and blue, battered and bruised, yeah. Hold the line, just give it some time then (call)... "Cor", what I like and what I hate about perseverance, Ooh, what I'd give and what I'd take for perseverance. I was round and about in the area, I was wearing my suit and tie, I was lost in the Bermuda triangle, It all went pear-shaped, twisted and twined, Twisted and twined, twisted and twined, yeah. And I don't mind preserving time at all. Hold the line, just give it some time then (call)... "Cor", what I like and what I hate about perseverance, Ooh, what I'd give and what I'd take for perseverance. I was lost on the road to nowhere, I was a guest on a runaway train, I was happy 'cos I knew I was innocent, They were glad to let me take the blame, Taking the blame, taking the blame, taking the blame, It's always the same 'cos I... what I like and what I hate about perseverance, Ooh, what I'd give and what I'd take for perseverance, I haven't time, I haven't space for perseverance, 'Cos I swap and change just when I like to keep up appearance.
