

# Tesla, Shine Away

(Keith, Hannon, Skeoch, Wheat)

All is well, as it could ever be  
All is well, as it could ever be

All is well, as it could ever be  
All is well, as it could ever, it could ask for

Me, I told myself that I'd get better, and I knew I would  
But I said that a thousand times  
Said the same in the letters that I wrote to you  
Guess you thought it's that same old line

Ooh I know, but the rest of my soul it don't ever need a reason why  
Told myself I'd get over it and over you, never will till the day I die

This won't take long, shouldn't take but a minute  
I got you right here in my heart  
It's only human, it's only natural, it's love or animal  
There you are, so far away, but instead I got it right here in my face

Shine away, shine away, one look at you and I can see the light of day  
Shine away, shine away, 'cos I'm afraid of what could happen  
If you shine my way, don't you shine my way

Now that it's over, I ask myself the reason why  
That [was in the time with you on my mind]  
Told myself I'd forget about, forget you  
Now it's changed it don't feel so right

Ooh I know, but the rest of my soul it don't ever need a reason why  
Love you so and always will, love to love you even still  
Now there you are, so far away, all the while I got it right here in my face

Shine away, shine away, one look at you and I can see the light of day  
Shine away, shine away, 'cos I'm afraid of what could happen  
If you shine my way  
Shine away, shine away, I got somebody sittin' home, waitin' for me yeah  
Shine away, shine away, you make it hard for somebody  
Who don't want to play, and I want to play

[Solo]

I told myself that I'd get better, and I knew I would  
But I said that ten thousand times  
Said the same [if time don't make that call for you]  
Guess you thought it's that same old line

This won't take long, shouldn't take but a minute  
I got you right here in my heart  
It's only human, it's only natural, it's love or animal  
Now there you are, so far away, all the while I got it right here in my face

Shine away, shine away, one look at you and I can see the light of day  
Shine away, shine away, 'cos I'm afraid of what could happen  
If you shine my way  
Shine away, shine away, I got somebody sittin' home and waitin' for me  
Shine away, shine away, shine away, shine away, shine away

Shine away, shine away, shine away, shine away, shine away
