

Test Icicles, Party On Dudes (Get Hype)

(scream)

I can feel it when I'm walking down the street
the kids are crazy but they know where to be
Well I forgot that you just gotta (catch it)
when we break it down its just like magic

get ready for the fight
showing you the way
I wonder what its like
do I need to say to you
to get this party started

listen

my eyes can't believe this mess
get in line dont try to test
I got the dream that'll make you bounce back
feel the beat feel the flow
it's time to go

get ready for the fight
showing you the way
I wonder what its like
do I need to say(to you)
to get this party started

we'll make that shittin' (scream)

I know that sometimes you just need to get away
well thats cool with me
whatever happens I just need to know that we can get this party started

today yeah
