

# Testament, D.N.R. (Do Not Resuscitate)

Lies... broken dreams  
Dismal past  
is there more in life...  
should I... know  
Ending wars... ending pain  
Ending of mankind is insane  
and there's all the possibilities  
some will fail and some will achieve  
Even through in my youth  
I didn't know but what can I do

And I may not ever see  
In my pain, my suffering  
Can not live for the rest of my life  
D.N.R. Do not resuscitate me...

Life... lost unseen  
Behind the mask  
And with the open arms will I grasp  
Open doors... open minds...  
Ending all the madness I hate

And I may not ever see  
In my pain, my suffering  
Can not live for the rest of my life  
D.N.R. Do not resuscitate me... D.N.R...

Wing of sadness... will  
hold my prayers  
all this madness... will  
end my fears  
contempt in life  
Conceptualize, wrong or right  
The ending of life...  
God save me now...

Time... end it now  
No going back  
Can you see the light ass you pass  
Ending wars, ending pain...  
Waited all my life to be saves

And I will not ever see  
All the hate and suffering  
Can not live for the rest of my life  
D.N.R. Do not resuscitate me... D.N.R.
