

# Testament, Down For Life

When I see my brother  
What I see is like no other  
What we had forever lost  
Can't deny our friendship  
Feeling like it's time to end this  
Bad relation ripped appart

When we're young  
and disaranged  
We didn't know it  
any other way  
Now were grown  
He's still the same  
People see him suffering

I am not about to run away  
Turn my back to him  
In his darkest hour  
Give him will to fight  
Antagonize his thoughts  
See him thew his thoughtest times  
Purify his weakened heart

All the friends  
We feel the same  
the way it was  
back in the day  
The more we change  
He stays the same  
Will we ever see our friend again

I... feel that...  
I can't protect my friend from himself

All I've got  
are these lessons learned in life  
The lessons I've been taught  
They still remain  
inside me thoughts  
Even as we speak  
as troubled as it seems  
He'll always be a friend of mind  
That's the way it was  
And always will be

When we're young  
and disaranged  
We didn't know it  
any other way  
Now were grown  
He's still the same  
People see him suffering

I... feel...  
I cannot help my friend  
Help him self

You... can't hear what I say  
Never going away...  
still friends down for life...  
can you still fight...

All I've got  
are these lessons learned in life

The lessons I've been taught  
They still remain  
Inside me thoughts  
Even as we speak  
As troubled as it seems  
He'll always be a friend of mind  
That's the way it was  
And always will be

Now in the end  
It plain to see  
What kind of friend  
He has been for me  
All along he could never see  
Who he was  
And always be
