## Testament, Let Go Of My World

Listen now to my sordid tale My words they speak to you They testify You can't deny You see it's oh so true I dwell in thoughts Of the universe What's immortality ? It's said to be The lies they breed The pages start to bleed How can this be ?

Let go of my world Let it go...

Touch my soul With subliminal sin Deceptions they induce Ingest the lies Dissect the mind You can't control the youth Enslave the free With conformity

Oppression takes it's toll Hey little man Who are you To try to take control Of my soul...

Let go of my world Let me go...

Bleed me dry Read between the lies Filter out the truth Pick at my brain Brand me insane I know what I must do Take my life into my own hands My sins I will atone If I don't try I will reside Inside a mental home Home sweet home...

Let go of my world Let it go...
