

# Texas, Can't Resist

I know I cant resist  
I believe that you told me  
A promise lives with lie  
Such you tease as you hold me  
Theres hunger in your eyes  
Thats the way that I remember you  
When the sun was high  
And the nights were cool  
It seems that lately  
I just dream of days  
In the silver sky  
That I cant be rain  
I know I cant resist  
I never wanna to fall asleep  
Ill only wanna to die in deeper  
That I tired and tired and tired to walk away  
I am scared of what I missed  
But don't you know it taste so sweet  
Ill only want to die in deeper  
That I tired and tired and tired to walk away  
That's the way I remeber  
The summer sun was high  
To the cold at November  
Im still in silver sky  
Thats the way that I remember you  
When the sun was high  
And the night were cool  
It seems that lately  
I just dream of days  
In the silver sky  
That I cant be rain  
I know I cant resist  
I never wanna to fall asleep  
Ill only wanna to die in deeper  
That I tired and tired and tired to walk away  
I am scared of what I missed  
But don't you know it taste so sweet  
Ill only want to die in deeper  
That I tired and tired and tired to walk away  
Im falling for your sentimental charms again  
Im finding it so hard to break it  
But everytime the pleasure turns into pain  
Im more inclined to stand to take it  
This is the way I remember you  
The sun was high  
And the night was oh so cool  
Its how I remember you  
I know I cant resist  
I never wanna to fall asleep  
Ill only wanna to die in deeper  
That I tired and tired and tired to walk away  
I am scared of what I missed  
But don't you know it taste so sweet  
Ill only want to die in deeper  
That I tired and tired and tired to walk away  
I know I cant resist  
I know I cant resist  
I know I cant resist
