

# Texas Is The Reason, Blue Boy

So you're expecting me to just sit back down and let this pass me by.

(To me, this is for real)

You want it all to be sussed out without ever really trying.

(To me, this is for real)

Maybe with you on my side, I'll be able to reach the sky.

You think you finally figured it out.

Me, myself, I'll never learn.

You think you finally figured it out.

Me, myself, I'll never learn.

Maybe with you on my side, we'll be able to reach the sky.

(To me, this is for real)

You finally found me.
