

Texas, Move In

Move in, move in
Move in, watch me move in

Invite me to a party
Hang some colour on the walls
It makes me feel like eighteen
I'm gonna change things for us all

Sooner or later the music goes
I see a trace of sweat on your face

Move in, move in
Remember now the times we had
Move in, watch me move in
Remember now the times we had

Our world's turned round but that's okay
Yet, things still look the same
People dancing so much
Keep it pushing come what may

Sooner or later the music goes
I see a trace of sweat on your face

Move in, move in
Remember now the times we had
Move in, watch me move in
Remember now the times we had

I see the lights are low now
But still the faces glow
A year that's full of zeros
Yet who knows what that holds

Sooner or later the music goes
I see a trace of sweat on your face

Move in, move in
Remember now the times we had
Move in, watch me move in
Remember now the times we had

Move in, move in
Remember now the times we had
Move in, watch me move in
Remember now the times we had

Move in, move in
Remember now the times we had
Move in, watch me move in
Remember now the times we had

Lead on
Oh the music goes
And I feel it pushing on, baby
I feel it's pushing
Push against me
Please, stop
I feel the music
Inside me
