

Texas, Say

I walked along to the strand hotel
A bit confused to get overwhelmed
By waking up in a one night's bed
Except for someone just standing there
And now I get carried along
I hope they won't catch me
I swallow the pill
Say it is't so
Say you'll never leave me
Tell me everything's okay
You know I meet you half-way
Say it is't so
Say you'll never leave me
Tell me everything's okay
You know I meet you half-way
I can't believe I stayed out so long
It messed me up but I do get along
With everything I still feel love grown
I wouldn't have gone ??? if I had known
And now I get carried along
I hope they won't catch me
I swallow the pill
Say it is't so
Say you'll never leave me
Tell me everything's okay
You know I meet you half-way
Say it is't so
Say you'll never leave me
Tell me everything's okay
You know I meet you half-way
Say it is't so
Say you'll never leave me
Tell me everything's okay
You know I meet you half-way
Say it is't so
Say you'll never leave me
Tell me everything's okay
You know I meet you half-way
Say it is't so
Say you'll never leave me
Tell me everything's okay
You know I meet you half-way
Say it is't so
Say you'll never leave me
Tell me everything's okay
You know I meet you half-way
