

Texas, Tonight I Stay With You

I see the morning and I'm by your side
The light is dawning and I know you're right
I look at you and now I feel that I'm alive

I've left my past, it's lying at the door
I've left my suitcase lying on the floor
I knew from you that I could learn, learn so much more

So I'm now, I'm here with you
Tonight I stay with you
So I'm now, I'm here with you
Tonight I stay with you

We're making love and I can feel you care
That's so much better 'cause it makes it bare
When I'm with you you make me feel like I can fly

So I'm now, I'm here with you
Tonight I stay with you
So I'm now, I'm here with you
Tonight I stay with you
So I'm now, I'm here with you
Tonight I stay with you
So I'm now, I'm here with you
Tonight I stay with you

I'm staying with you
Tonight and all night
