

Texas, Wrapped In Clothes Of Blue

Hold me close and understand
It's now that I need you
There's so much doubt when I'm alone
I'm wrapped in clothes of blue
And I need you to assure me
Always be near me

I'm thinking about the times to come
And already what we've done
It's only when I see you smile
You open up my world
Oh, I want you to laugh again
Join our hands and laugh again
Lead ourselves through time
And I need you to assure me
Always be near me
Show me you're right
