

That Dog, Every Time I Try

What do you wanna do (what do you wanna do)
What do you wanna do (what do you wanna do)
Hey I'm talking to you, my friend

What do you wanna eat
Where do you wanna sleep
Are you talking to me, my friend

I have this problem with you
I wanna work it out, but I don't know how to
Every time I try...
Every time I try I cry over you

Where are you gonna be
If you stay here with me
Are you walking in your sleep again

I have this problem with you
I wanna work it out, but I don't know how to
Every time I try...
Every time I try I cry

Cry
Cry
Cry
Cry.
I have this problem with you
I wanna work it out, but I don't know how to
Every time I try...
Every time I try I cry
I cry
Over
I cry
Over you

I wanna work it out, but I don't know how to
I wanna work it out, but I don't know how to
I wanna work it out, but I don't know how to
Every time I try
Every time I try
I wanna work it out, but I don't know how to
Every time I try
I wanna work it out, but I don't know how to
