

The 69 Eyes, Angels

Nothing's left here but the sun
The human race is on the run
The ancient gods should have told
The earth has never felt this cold

Countdown has just begun
Apocalypse has got a sun

Angels
Flying over the land of blood
Angels
Warriors that heaven forgot

Read my bloodstained apoca-lips
21st century son of a bitch
Speaking with the mouth of a whore
Riding with the horsemen of four

Countdown has just begun
Apocalypse has got a sun

Angels
Flying over the land of blood
Angels
Warriors that heaven forgot
