

The 69 Eyes, Next Stop Paradise

I never promised you miracles baby
i only wanted to be with you
tryin' to get over it is makin' me crazy
i never thought you could be so cruel
whatever happened to the promises baby
we made each other that night
tryin' to get over it is makin' me crazy
if love's an angel you're a devil's spice burnin'
up and down in my spine

show me the angel i saw in your eyes
fill my last desire and the next stop's paradise
show me the angel i saw in your eyes
fill my last desire and the next stop's paradise

what did you want what you wanted from me baby
why did you throw my heart away
tryin' to get over it is makin' me crazy
i never thought i would burn in flames
where could i find me a strong enough poison
to wash down this hurtin' pain
tryin' to get over it is makin' me crazy
if love's an injection you're the cheapest brown burnin'
up and down in my veins

show me the angel i saw in your eyes
fill my last desire and the next stop's paradise
show me the angel i saw in your eyes
fill my last desire and the next stop's paradise
