

# The Afghan Whigs, Honky's Ladder

(Dulli)

Got you where I want you  
Motherfucker  
I got five up on your dime  
And if you wanna peep on something  
Peep what I got stuck between  
Your eyes  
And since I don't believe  
A word you say  
Save it for another, baby brother  
Swallow time to pay

Up on the ladder they sing  
How high?  
Does a brother have to climb  
to touch the light

But wait 'till I get done  
With you  
If you tell me  
"Don't get mixed up with the Devil"  
That's exactly  
What I'm gonna do

Caught you while you waited  
For your boy to come  
And fix you up again  
Come a little closer, baby  
I only wanna try to  
Be your friend  
Since I ain't got nothing  
Left to lose  
Got you where I want you  
Motherfucker  
Don't you try to move

Up on the ladder they sing  
How high?  
Does a brother have to climb  
to touch the light  
Won't u take me up there  
With you?  
You said you would  
No one ever could shake  
That ladder like I could

So I wait
