

# The Afghan Whigs, Honky's Ladder

(Dulli)

Got you where I want you  
Motherfucker  
I got five up on your dime  
And if you wanna peep on something  
Peep what I got stuck between  
Your eyes  
And since I don't believe  
A word you say  
Save it for another, baby brother  
Swallow time to pay

Up on the ladder they sing  
How high?  
Does a brother have to climb  
to touch the light

But wait 'till I get done  
With you  
If you tell me  
&quot;Don't get mixed up with the Devil&quot;  
That's exactly  
What I'm gonna do

Caught you while you waited  
For your boy to come  
And fix you up again  
Come a little closer, baby  
I only wanna try to  
Be your friend  
Since I ain't got nothing  
Left to lose  
Got you where I want you  
Motherfucker  
Don't you try to move

Up on the ladder they sing  
How high?  
Does a brother have to climb  
to touch the light  
Won't u take me up there  
With you?  
You said you would  
No one ever could shake  
That ladder like I could

So I wait
