

# The Afters, Never Going Back To OK

It's not the end  
But it feels like it is  
I'm waking up  
Like I'm back from the dead  
I'm stepping out  
And I feel so afraid  
But as long as I'm moving it's all right

I feel alive  
And it hurts for a change  
And looking back and it's hard to believe  
That I was cool  
With the days that I wasted complacent and tasteless and bored but  
That was yesterday

We're never going back to OK  
We're never going back to easy  
We're never going back to the way it was  
We're never going back to OK

This discontent  
Like a slap in the face  
Of mediocre  
I've had enough of this place  
This party's over  
And I'm moving away from the frills of you Beverly Hills but that was yesterday

We're never going back to OK  
We're never going back to easy  
We're never going back to the way it was  
We're never going back to OK

We're here to stay  
This is our time  
Our only life  
Our chance to live
