

# The Agony Scene, Rapture

Give us the death of creation.

Bring famine, flood and plague to end our tortured existence.

Let us suffer forevermore.

We forged this path of resistance and died for an empty cause when there was nothing to live for.

Let us suffer forevermore.

Is this the reason we bleed?

We never thought to question why.

A life lived in fear is so meaningless.

Open your eyes.

Is this what we've suffered for?

Hopeless and self-deprived, we are forever discontent. line) --&gt;
