

# The Alan Parsons Project, Stereotomy

Lead vocal - John Miles

Diamond eyes  
That burn me and turn me to stone  
Crystallise  
And freeze me in clear monochrome

Turn me to stone; do anything you want with me  
Turn me to stone; do anything you want  
Stereotomy  
We can make it together  
Do anything you want with me  
Do anything you want

Scarlet minds  
Possess me and I feel no shame  
Silent knives  
Dissect me and I feel no pain

Stereotomy  
We can make it together  
Do anything you want with me  
Do anything you want  
Stereotomy  
We can make it forever  
Do anything you want with me  
Do anything you want

Starlight beams  
Project me in red blue and green  
Velvet dreams  
Protect me when I hit the screen

Stereotomy  
We can make it together  
Do anything you want with me, do anything you want  
Stereotomy  
We can make it forever  
It's always the same, it's always the same  
Stereotomy, we can make it  
We can make it, do anything you want

Turn me to stone  
Do anything you want with me  
Cover my eyes  
There's nothing more they need to see  
Turn me to stone  
Before there's nothing left of me  
Make me a rock  
And not what I appear to be  
Turn me to stone  
Turn me to stone
