

The Androids, Gone

Standing up you know she wants to talk
Sitting down your jaw is on the floor
Hey understand it where you know she's coming from
The only words are that she wants you gone

Gone
Gone

You never really wanna sit to the side
Being with it really gets you high
Hey underwritten by your fear of being alone
You tried oh what you never feeling good

Oohoohoohoohoohoohooh
She wants you gone
Oohoohoohoohoohoohooh
Don't ever meddle with the girl at home

You never really wanna try and picture
You wouldn't choose I had your mind ripped out
Hey independence didn't mean attention
With all that bullshit coming from your mouth

Oohoohoohoohoohoohooh
She wants you gone
Oohoohoohoohoohoohooh
Don't ever meddle with the girl at home
Oohoohoohoohoohoohooh
She wants you gone
Oohoohoohoohoohoohooh

I'm standing where you know shes coming from
All the words and know she wants you gone
