

The Animators, Good Day

On a good day, I smile for the camera
All the signs say it's safer for everyone
And I feel warm inside
'Cause I know there's no use hiding

On a good day, I don't read the papers
What I don't see won't keep me up at night
Though the names may change
It's always the same old story

Today better be a good day,
Cause I can't wait, I can't take it
Could be a good day is all I need
We might be goin' the wrong way, It's a feeling I can't shake it
Could be a good day is all I need
One good day

On a good day, I fight for my country
In my own way, I fight like a green beret
And I dig down deep
For the courage to keep on spending

Today better be a good day,
Cause I can't wait, I can't take it
Could be a good day is all I need
We might be goin' the wrong way, It's a feeling I can't shake it
Could be a good day is all I need
One good day, One good day

On a bad day, I don't know my number
On a bad day, I can't run away

Today better be a good day,
Cause I can't wait, I can't take it
Could be a good day is all I need
We might be goin' the wrong way, It's a feeling I can't shake it
Could be a good day is all I need
One good day, USA, one good day
