

The Apex Theory, Aisle Always

Remember...

When we heard our song, we say it

Remember...

When we shared our toys with one another

How it was, that night

They took us to the station

Remember...

The little angel staring at me

Like to still believe that you are here

Yes I know the price of (fear)

Tell me, please tell me

Where did you go

That long night?

Where did you go

That long night?

I thought you'd said

I thought you'd never forget

I thought you'd said

I thought you'd never forget

So now, we could, be good

Push

'Till I get it straight

Understand

I'll push

'Till I get it straight

Understand all there is to know

Say... Gabriel says

GABRIEL!

Says... GABRIEL!

Says... GABRIEL!

Where did you go?

Leave me to stay

I don't know

Come back soon

Where did you go?

Leave me to stay

I don't know

Come back soon

Where did you go?

Leave me to stay

I don't know

Come back soon

Where did you go?

Leave me to stay

I don't know

Come back sometime!

I thought you'd said

I thought you'd never forget

Please say...

Gabriel says

GABRIEL!

Says... GABRIEL!

Says... GABRIEL!
