

The Architects, Body Groove

Architects, Nana
Are you ready?
Bring it on

It's the weekend, and you're ready to make a move
You're workin', 9 to 5 it ain't so smooth
So Monday, and it's stress up on your life
And you know that music really beats life

So you got to
Make the body move
You got to let the body groove
Make the body move
You got to let the body groove
Make the body move
You got to let the body groove
Make the body move
You got to let the body groove

So now, is it time to do your thing?
Let the, melody carry the swing
All that, I want is for you to get on down
So you can feel the music all around

But you got to
Make the body move
You got to let the body groove
Make the body move
You got to let the body groove
Make the body move
You got to let the body groove
Make the body move
You got to let the body groove

Gotta make it
Gotta let it
Gotta make this body move
Gotta make it
Gotta let it
Gotta make this body groove

Gotta make it
Gotta let it
Gotta make this body move
Gotta make it
Gotta let it
Gotta make this body groove

You're on the dance floor
Makin' your moves
Don't look around though
Just do what you do
Live for the moment
Take it in your stride
Cause you know that music really beats life

And you've got to
Make the body move
You got to let the body groove
Make the body move
You got to let the body groove
Make the body move
You got to let the body groove
Make the body move

You got to let the body groove

Make the body move

You got to let the body groove

Make the body move

You got to let the body groove

Make the body move

You got to let the body groove

Make the body move

You got to let the body groove

Let the body groove

Let the body groove
