

The Armoury Show, Higher Than the World

He lifted me a high
Higher than the world

Caught me running wild
Higher than the world

We fell on open ground
Feel it - can you feel it

The sun shone on my side
Run - run - runaway - run away

Oh promises of change
Higher than the world

Come silent as the shade
I'm higher than the world

And on it goes like a fire
Push it on - push it higher
