

The Arrogant Worms, We Are The Beaver

The US is the eagle, Russia is the bear,
Australia is the kangaroo, cause they're kind of weird down there.
Yeah, India is the tiger, that stands so proud and tall,
But Canada is the greatest of them all.

We are the beaver, we're furry and we're free
Yeah, we are the beaver, we got two big front teeth
Yeah, we are the beaver, we can chew right through small trees
We are the beaver, we are the beaver, we are the beaver.

You might think a rodent is a pretty lame choice
For a national animal, but don't you listen to that voice.
No, cause all them birds and predators, just take from the land
But the beaver, always gives a dam.

We are the beaver, we got cute little webbed feet
Yeah, we are the beaver, it's bark we like to eat
Yeah, we are the beaver, a nickel we complete.
Yeah, we are the beaver, we are the beaver, we are the beaver.

The eagle flies the sky above and swoops down on its prey
The big bear will maul anyone who dares gets in its way
The tiger is the greatest of the hunters today.
But the beaver it can build dams. Yeah,
The beaver it can build dams, dams, dams.

We are the beaver, we slap our tails when danger's nearby
We are the beaver, we got waterproof hides
Yeah, we are the beaver, we got big bums and beady eyes.
We are the beaver, we are the beaver, we are the beaver.

We are the beaver, our name is often used as a double entendre
We are the beaver, cause in Canada, both French and English belong
Yeah, we are the beaver, and the subject of this song is
We are the beaver, we are the beaver, we are the beaver.
I can't hear you.
We are the beaver, we are the beaver, we are the beaver
Are you getting the point?
We are the beaver, we are the beaver.
We are the beaver
