

The Audreys, Small Things

if theres one thing that Ive noticed
out of all the things Ive seen
its that you can leave a footprint
in a place youve never been
and theres barely time to look around
before you have to leave
and a mark upon the skin
is not enough to make you bleed
if theres one thing that Im keeping
out of all the things Ive found
its that the best way to be heard sometimes
is not to make a sound
and the things we want the most
fetch not a penny nor a pound
and all it takes to find your feet
is just to stand your ground
if theres one thing that Im sure of
out of all the things I know
its that you can keep on going fast
Ill still be going slow
and fallings not that hard
when youre starting out so low
and drownings not that bad
if you breathe and just let go
breathe and just let go
(the wasted and the used things
the broken and abused things
all these small things
the treasured and the sacred things
the lost and the forsaken things
all these small things)
