

# The B-52's, Dancing Now

Love is gone  
But just for a while  
It's full speed ahead  
Now I can smile  
You twisted my heart  
With your wicked plan  
But I saw the signs  
Before I, I melted in your hands

I finally broke through - dancin' now  
Before I broke down - dancin' now  
You messed around - dancin' now  
I didn't fall for anything  
I landed on my feet

Yeah you - thought I would crash  
But I broke through  
Dancing on the edge of the flames  
Showing the burn ignoring the pain  
[Dancin' dancin' dancin']  
[Oooh edge of the flames]

(Chorus)

I finally broke through - dancin' now  
Before I broke down  
I was no fool - dancin' now - you messed around

Venus went away  
To a lonely outer star  
Now she's back  
And here we are  
Now she's back and  
Here we are

I finally broke through  
Before you broke own  
I was no fool  
No you were a clown  
I'm dancing on the edge  
the edge of a flame  
Showing no burn  
And showing no pain
