

# The B-52s, Topaz

New cities by the sea  
Skyscrapers are winking  
Some hills are never seen  
The universe expanding  
We're gazing out to sea  
Blue dolphins are singing  
Minds swim in ecstasy  
Clear planet, ever free

Topaz  
Our hearts are traveling faster,  
Faster than the speed of love  
Straight through a tear in the clouds  
Up to the heavens above

Bright ships will sail the seas  
Starfishes are spinning  
Some hills are never seen  
Our universe is expanding  
Moonrise upon the sea  
Starships are blinking  
We'll walk in ecstasy  
Clear planet blue and green

Topaz  
Our thoughts are traveling faster  
Moving beyond the heavens above

Planets pulsating, constellations creating  
Voices are guiding me to the cities by the sea  
Yes, I see cities by the sea

Deep forests by the sea  
Skyscrapers are winking  
Some hills are never seen  
The universe is expanding  
Topaz
