

# THE BANGLES, Crash And Burn

L.A. to Reno  
Checking out the scene-o  
Feeling so mean-o  
Sometimes I wish I could crash and burn  
Winding through the hot night  
Without my headlights  
20/20 hindsight  
Sometimes I wish I could crash and burn  
Crash and burn  
And I never ever felt so lonely  
Crash and burn  
Can't look them in the eye  
Just want to drive and drive and drive  
Going nowhere  
And I don't care  
Can't wait 'til I get there  
Sometimes I wish I could crash and burn  
Fifty, sixty, seventy, eighty, ninety  
Gotta be a place where they can't find me  
Watching all those bridges burn behind me  
And if I can't see  
What's passing me  
Nothing's gonna touch me and I'll fly  
I wish I could crash and burn  
On my Philco  
I hear an echo  
There was a wreck-o yesterday  
and by tomorrow  
They'll clean the char-o  
And wash the tar and trouble away  
I wish I would  
I wish I could  
I wish I would
