

The Be Good Tanyas, It's Not Happening

The way your mind works
Travelling so fast
Carving your way
Through the city

And you can tell me
You get what you want
You figure it out
And you're just fine

Cause you're talking to yourself
Don't hear a thing
Now history unfolds before you
You just shut your eyes
You just shut your eyes
It's not happening

We all go up, down
Fend for ourselves,
Or fend for each other
Fend for each other sometimes

But you keep on racing me
Like something's chasing you
Like something's gonna get you
Something's gonna get you
One day

And you're talking to yourself
Don't hear a thing
Now history unfolds before you
You just shut your eyes
You just shut your eyes
It's not happening

And you're talking to yourself
Don't hear a thing
Now history unfolds before you
You just shut your eyes
You just shut your eyes
It's not happening

You just shut your eyes
You just shut your eyes
It's not happening
