

# The Beach Boys, Be Here In The Morning

It's been such a long day so you better hurry home  
Lit all my incense and I wish you were home  
Only five minutes and you walk through my door  
Be here in the morning  
Be here in the evening  
Be here and make my life full  
Be here in the morning  
Be here in the evening  
Be here and make my life  
Stay here on the weekend and unplug the phone  
(Alright then)  
No calls from Korthoff, Parks, or Grillo  
I only hope that you come here alone  
Be here in the morning  
Be here in the evening  
Be here and make my life full  
Be here in the morning  
Be here in the evening  
Be here and make my life  
Be here in the morning  
Be here in the evening  
Be here and make my life
