

The Beach Boys, I Just Got My Pay

Five long days and I'm tired of working
I'm going to see my boss today
In fifteen minutes I'll be on the train
'Cause I just got my pay
Now I could take and sock away my dough
And make me six percent a year
But it's not much fun to wait around for that
When I can spend it while it's here
Ah
Let's get dressed up
And see a movie
I like spending my money
And I like having a good time
Good times sure make me happy
And I'm so happy
'Cause I just got my pay
Monday morning I'm up and at it
Those last two days were good for my soul
It's time to do my working thing
I'm late so I got to roll
My take home comes to 'bout ninety-five
And my boss is giving me some praise
If it weren't for me the place would fall apart
I think I'll hit him up for a raise
(Hit 'im up get a rais)
Ah
Let's get undressed
And climb in bed too
I like spending my money
And I like having a good time
Good times sure make me happy
And I'm so happy
'Cause I just got my pay
