

The Bella Cullen Project, Bella's lullaby

Life was like a moonless night
Shrouded in the stars
Beauty can be such a fright
But now youre in my arms
You are my life now
Cant you see
Id cross oceans
Id swim seas
To be with you
Thats enough for me.
Your face is like a poison
Intoxicating me
How can we live forever
When our love can never be.
You are my life now
Cant you see
Id cross oceans
Id swim seas
To be with you
Thats enough for me.
