

# The Bella Cullen Project, Bree

You told me we were right  
You told me there was no other life  
They were weak, but we were strong  
Now we've both never heard this song.

[chorus]

We went to find them  
Tried to bite them  
But they were strong  
Oh Oh Oh Oh Oh  
Suddenly everyone was gone  
So I surrendered  
His heart so tender  
Maybe I could take them there  
But that would have left me nowhere.  
This life is so unfair  
Unnatural in every factor  
Didn't even have to breathe air  
Which really helped when She was there.

[chorus]

Her blood was so sweet.  
Really just wanted to eat  
But they were there.  
and that would have taken me nowhere

[chorus]
