

The best side of life, Sarah Connor

The best time of the year
Is calling me home
The best time of the year
And I wont be alone
The best time of the year
Ill share it with you
When I look in your eyes
All my dreams will come true
The best time of the year
I follow my heart
Threw the wind and the rain
No matter how far
I can feel all the magic tonight
On the best side of life.
Your loving arms, your tender smile
We just forget a world around us
For a little while
Theres only you and me tonight
I can feel the joy and happiness inside
Cause youre with me
On the best side of life
Its wherever you are
On the best side of life
My light, youre my star
I can see our future so bright
On the best side of life
On the best side of life
On the best side of life
On the best side
I can feel youre coming
Coming over me
I can feel the love so deep intensely Oh
It will be forever, it will be all right
I can feel joy and happiness inside
Cause youre with me tonight
On the best side of life
Its wherever you are
When the best side of life
Youre my light, youre my star
I can see our future so bright
Your loving arms, your tender smile
We just forget a world around us
For a little while
Theres only you and me tonight
I can feel the joy and happiness inside
Cause youre with me
The best time of the year
I follow my heart
Threw the wind and the rain
No matter how far
I can see our future so bright
On the best side of life
On the best side of life
On the best side of life
Cause youre with me tonight
On the best side of life
Cause youre with me tonight.
