

The Beta Band, She's The One

Fallin' through the floor
With the friend I had before
Grabbin' at straws
So the holes don't slow me down

Comin' up next
The lizard in the text
Showing me the ropes
Don't be givin' up your hope

Trickle downstream
With the underwater steam
Fish on the side
He's a-lookin' for a dream

She's the one for me
She's the one for me
She's the one for me
She's the one for me

Fallin' through the floor
With the friend I had before
Grabbin' at straws
So the holes don't slow me down

Comin' up next
The lizard in the text
Showin' me the ropes
Don't be givin' up your hope

Trickle downstream
With the underwater steam
Fish on the side
He's a-lookin' for a dream

Give up the try
For the everlasting life
Never grew upside
So I keep it all inside

Fat girl ticklish
Crazy Miss Stimulus
Fallin' on your face
With your stupid line brace

Sayin' pop goes the weasel
As he paints another easel
Grab a piece of pie
She's your chicken in your eye

Push out the boat
'Fore the river run dry
Drinkin' in the water
Sun puckin' on the egg-fry

With my super line
With my super line

I never threw before
So I never found the reason
Walk, fall, doesn't stall
Blowing in the breezin'

Holding on the side

Just a paintin' for the season
Walk, fall, doesn't stall
Blowing in the breezin'

She's the one for me
She's the one for me
She's the one for me
She's the one for me
