

# The Black Crowes, By Your Side

When your lost  
I am found  
When you slip  
I hold my ground  
When I fall  
Please take a bow  
And when you're up  
Just remember I am down

People looking for  
Fortune and fame  
They don't know  
That it's all the same  
It's like any other game  
You know there's a loser  
But it's alright

When you feel your heart is breaking  
When all your friends are faking  
When its giving and no taking  
I will be by your side

I've been over the hill and back  
Survived every kind of attack  
It's been a few years at that  
As a matter of fact

Good luck is just good luck  
You don't go hungry if you got pot luck  
I've been down  
But never on my knees  
I see the forest for the trees
