The Black Eyed Peas, Be Free

B.E.P., I know you feel it, huh (x4)

Oh my goodness, I know you feel the vibration Across the globe no matter your location Ain't no difficulty or complication Just as long as my niggas in the celebration Celebrated the musical liberation The peas then demonstrated the demonstration And you will feel the flush of relaxation I'm a wax these and then get heavy rotation I got you in bliss and ain't no aggrevation When you bump us, we bring the stimulation So hurry up and get your daily fixation But make sure that it's handled, it's a moderation One dose should bring you to a limitation So put your back into it, baby, that's right, huh I'm about to plug in some dedication This goes out to my brothers and my coalition

Chorus:

All I want is to be free You keep pushin' up on me All I want is to be free You be you let I'll be me Let me do what I feel inside Won't get taken for a ride Do just what I feel inside Everything will be alright (x5)

Everything will be alright (x5)

Whip it good like devoe we whip it good You understand Yo man, it's understood We be winnin tournaments like tigerwoods Openin your suburbs and bump it in your hood Rock it in your box or your hooptie-hoop Bump it in your hot beamer 850 coupe 'cause I'm a inform y'all on what to do
Hop in your ride and drive down in your avenue
It's bumpin in your barbeque and your venue
At a journey, feelin that ease, is why I sent you
'cause ain't no stoppin this, stoppin it
'cause we be rockin' it
Rock, rock, rock

Yeah, yeah, yeah (x8)

Chorus:

All I want is to be free You keep pushin' up on me All I want is to be free You be you let I'll be me Let me do what I feel inside Won't get taken for a ride Do just what I feel inside Everything will be alright (x5)

Gather up the team, now we ready to go
Any minute we'll be all over your box and video
Niggas wanna stop me and my amigos
But we still roll all over your accapella goes
Leave it or this one here like meteor
Your mediocre scene, you feel the roar
Vibration that's headed for your store
For a change, not bragging about close to more
Instead brain fusion, I lace you up confusion
Relax and feel the groove it's the solution
We straight cruisin' while the beat is still cruisin'
You're here so clap your hand to what we're doin

Chorus:

All I want is to be free You keep pushin' up on me All I want is to be free You be you let I'll be me Let me do what I feel inside Won't get taken for a ride Do just what I feel inside Everything will be alright (x5)

Whip it good.
