

# The Black Eyed Peas, Like That

(Q-Tip:)

Wow, we in stereo?

(Q-Tip:)

Question for the ages

What's going on with my rap pages?

Rappers wanna be down, but listen listen

You got to feel it within' your body and your spirit

When you listen to the rhythm come on

It's the abstract Will is on the beat

Women all around the globe, the world

You got to follow me

Change your history, categories

Different people in the same territories

Hip-hop in here for my Black Eyed Peas

So watch it watch it be mindful of the speakers please

Cause they gonna rumble and shake the ground

Break atoms breakin' sound

Fill the embraceful pound

Treat all the things profound

If you wanna dude to help you out

Make it cool around your friends without smokin' now

Play the song kinda loud, it could help you out

And you could work it out, yeah you could work it out

It's like that, and a...

(Chorus: Will)

And we got it like that (like that)

You know we got it like that (like that)

Y'all we got it like that (like that)

It's like that, like that (like that)

Y'all we got it like that (like that)

You know we got it like that (like that)

Yeah we got it like that (like that).

(Will:)

It's like that cause I got it like that

And I got it like that also

Got a style that's way out like Bosto

You know I'm known to cook a nigga like Choco

Steady droppin' rounds like it's heavy cargo

(Can I kick it?) Yup, really far though

From El Segundo to Toronto

Up in Chicago

But I'd never say "Hoe" unless my name was Tonto

Yup, you know how the date rape go

Kobe showed we a classic example

Now they know the Peas collect the dough

So they knocking on our door like we was Fargo

Yup, they see me in a Will I Am suit

But I wasn't that cute when I didn't have the loot

And I don't smoke herb but I'm still real nice with the verse

So fuck what cha heard

Cause we got it like that

(Chorus:)

You know we got it like that (like that)

Y'all we got it like that (like that)

It's like that, like that (like that)

Y'all we got it like that (like that)

You know we got it like that (like that)

Yeah we got it like that (like that).

Talib, just hit 'em like that.

(Talib Kweli:)

I'm from the jungle, brother, and I got it like that  
Yo, my life got me running through a maze like the white rap  
I need a shot of Remy like my rap  
It's like the yack is the fights that got me spillin' on the right track  
And I like this Will so I might get ill  
On the mikes somebody might get killed  
So many damn rappers there's a stifle in heaven  
My tongue is a weapon and plus when I bust it's the stuff of legend  
When this Brooklyn MC come after you  
You be running like a herd of Caribou down Myrtle Avenue  
Where we at ain't nothin' pretty that's the attitude  
To be at Fight Club, even Brad had to crack a tooth  
Stare into the Sun, they try to copy  
Let your eyes get used to the light because you gotta watch me  
Sneak up on you like saki  
My lyrics get out of a split atom like Hiroshima and Nagasaki.

(APL:)

It's the APL DE AP in the lab with the rap  
Demonstrate how we act, we attack any track  
It's the Black Eyed Peas and we back with the facts  
Start with the fat skills that rose in the past  
We got it like how you know how to beast rocks  
Entertain you, see you soon at the next spot  
The crew got you bouncing and dropping your eye  
Making you naha ehshabisha e mat  
Tss tsss tsss, I'm a roll with the hot  
I'm a flow from the soul when you can't hold me back  
Ke-ke-keep on keep on rolling the track  
I'm a simply simply always attach
