

The Black Keys, Burn The Damn Thing Down

Way out over the ocean
Deep down under the sea
Way up high to the top of the mountain
And everywhere in between

We've been rolling
We keep on rolling
We've been driving
Day and night

If we make it to your town
We're gonna burn the damn thing down

We been flat-broke busted
Running on our borrowed time
The engine never rusted
'Cause we stay far down the line

We've been rolling
We keep on going
We've been high
Day and night

If we make it to your town
We're gonna burn the damn thing down

We've been rolling
We keep on going
We've been high
Day and night

If we make it to your town
We're gonna burn the damn thing
Make it to your town
Gonna burn the damn thing down
