

# The Black Keys, I'm Glad

When you first came around I was sad  
My head hung down I felt really bad  
Now I'm glad, glad about the good times  
That we've had

Walked in the park  
Kissed in the dark  
Leaves burned just like  
Just like the spark  
Now I'm glad  
Glad about the good times  
That we've had

You went away  
I cried night and day  
For what you done  
You had to pay  
Left me so blue  
Not no where to go  
Please come back and let the sun shine through

Sun passed behind a cloud  
I felt so proud  
We walk down the street  
Smile at people we meet  
Now I'm glad  
Glad about the good times  
That we've had

You went away  
I cried night and day  
For what you done  
Oh I had to pay  
Left me so blue  
Not no where to go  
Please come back and let the sun shine through
