The Black Keys, Run Me Down

Run me down in the winter, Run me down in the spring, Got to the place, Can't do a goddamn thing, But after a while, You ain't gonna run me down anymore,

Run me down in the city, Run me down on the farm, Run me with your eyes, And your witty charm, But after a while, You ain't gonna run me down anymore,

I do for you, You don't do for me, You run me down, To where you want me to be, But after a while, You ain't gonna run me down anymore.
