

The Black League, Alive Is Dead

They try to f**k us...
They always did...
They try to break us...
They never will...

You thought me dead, boe!
Well I'm alive...

They try to sweep us from the face of the earth
They try to make us regret our birth
They try to flush us right down the drain
And play their filthy games again and again!

You thought me dead, boe!
Well I'm alive...
You thought me dead, boe!
But I'm alive...

They always tried to sabotage our thing
And ban and boycott every song that I sing
They're tryin' to make to make us even dig our own graves
We'll keep'em waitin' for the Judgement Day!

Still alive...
Still alive...
