

The Black League, Night On Earth

...night on earth... night on earth... night on earth... night on earth...
It's night on earth... It's night on earth now... It's night on earth...
It's been a long day. So bloody cold.
Here in the White Town of the North
Walking... Past the gravestones, across the frozen fields
Through the hordes and congregations - Right against the stream!

Thy Kingdom Come - Thy Kingdom Gone
In the White Town of the North
Thy Kingdom Come and another good man gone
And when it's night it is night upon this earth

Thy Kingdom Come - Thy Kingdom Gone
In the White Town of the North
Thy Kingdom Come and another good man gone
And when it's night it is night.

Every somber pace in the night takes you farther from the light of day
Takes you deeper... Steals your shape
Then engulfs you... Fell of the Night

Is this the New Age?
Or are these the Dark Ages?
In the White Town of the North
Meeting... stranger faces and long-abandoned places
Past the ruins and through the wreckage
Where our souls and spirits lie

Thy Kingdom Come - Thy Kingdom Gone
In the White Town of the North
Thy Kingdom Come and another good man gone
And when it's night it is night upon this earth...

Thank You, Good Night.
