

The Black League, The Healer

Right!

I'm sitting in your room tonite
I'm right here baby by your side
I wanna hold you by the hand
And tell you girl only I undersand

I wanna heal you!
I wanna make it good!
But I can't...
For I can only make you worse

I step beside your bed all night
I tell you everything's alright
If only you could feel my touch
And hear me whisper that I love you so much

I wanna heal you...

You think I am your saviour girl
You think I'm gonna be your man
But I ain't gonna save you baby
Although I'm pretty sure that I can
